**SECTION 1: Identification**

1.1. Identification

Product form: Mixtures

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use: Blasting sand, golf course sand, filter sand, play sand, silica flour, infill sand, traction sand, frac sand

1.3. Details of the supplier of the safety data sheet

**Manufacturer**
Shaw Resources
Nova Scotia Sand & Gravel Operation
901 Sandy Desert Road
Shubenacadie, NS, B0N 2H0
T: 902-758-4730 (7:00am to 5:00pm AST, Mon-Fri)
Shipping Office Fax Number: 902-758-1365

**Distributor**
Add the name, address and tel. number of the US manufacturer or importer who operates in the US

1.4. Emergency telephone number

Emergency number: 902-758-4730 (7:00am to 5:00pm AST, Mon-Fri)

**SECTION 2: Hazard identification**

2.1. Classification of the substance or mixture

**GHS classification**
Carc. 1A
STOT RE 1

2.2. Label elements

**GHS labelling**

Hazard pictograms (GHS): GHS08

Signal word (GHS): Danger

Hazard statements (GHS): May cause cancer. Causes damage to lungs through prolonged or repeated exposure.

Precautionary statements (GHS): Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Wash hands, forearms and face thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. If exposed or concerned: Get medical advice/attention. Dispose in a safe manner in accordance with local/national regulations.

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity

Not applicable

**SECTION 3: Composition/information on ingredients**

3.1. Substances

Not applicable
3.2. Mixtures

Comments: The concentrations listed represent actual ranges that result from batch variability.

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.

First-aid measures after skin contact: If skin irritation occurs: Wash skin with plenty of water. Obtain medical attention if irritation persists.

First-aid measures after eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion: Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation: May cause irritation to the respiratory tract. Symptoms of exposure may include cough, sore throat, nasal congestion, sneezing, wheezing and shortness of breath. Prolonged inhalation of respirable crystalline silica above certain concentrations may cause lung diseases including silicosis and lung cancer. The extent and severity of lung injury depends on duration and level of exposure.

Symptoms/effects after skin contact: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.

Symptoms/effects after eye contact: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Symptoms/effects after ingestion: May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

4.3. Indication of any immediate medical attention and special treatment needed

Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Use extinguishing media appropriate for surrounding fire.

Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire.

5.2. Special hazards arising from the substance or mixture

Fire hazard: Products of combustion may include, and are not limited to: oxides of carbon.

Reactivity: Sand in mix dissolves in hydrofluoric acid, producing corrosive silicon tetrafluoride gas. Silicates react with powerful oxidizers such as fluorine, boron trifluoride, chlorine trifluoride, manganese trifluoride and oxygen difluoride.

5.3. Advice for firefighters

Firefighting instructions: Do not apply water directly at source of leak.

Protection during firefighting: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

6.1.1. For non-emergency personnel

No additional information available

6.1.2. For emergency responders

No additional information available

6.2. Environmental precautions

Prevent entry to sewers and public waters.
6.3. Methods and material for containment and cleaning up

For containment: Contain spill, then place in a suitable container. Minimize dust generation. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).

Methods for cleaning up: Dust and particulate matter should be vacuumed with a filtered vacuum or wet swept where vacuuming is not feasible. Do not use compressed air or dry sweeping as a means of cleaning. Place in appropriate disposal container. Provide ventilation.

6.4. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection"

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Do not breathe dust, mist. Avoid contact with skin, eyes and clothing. Do not swallow. Good housekeeping is important to prevent accumulation of dust. Avoid generating dust. Handle and open container with care. When using do not eat, drink or smoke.

Hygiene measures: Wash contaminated clothing before reuse. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Avoid any dust buildup by frequent cleaning and suitable construction of the storage area. Keep away from incompatible materials.

Incompatible materials: Strong oxidizers. Hydrofluoric Acid.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls: Ensure good ventilation of the work station.

Hand protection: Wear suitable gloves.

Eye protection: Safety glasses or goggles are recommended when using product.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Other information: Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.

SECTION 9: Physical and chemical properties

**Silica Sand**  
**Safety Data Sheet**

**Relative density** : 2.6 - 2.7

**Solubility** : Insoluble in water.

**Partition coefficient n-octanol/water** : No data available

**Auto-ignition temperature** : No data available

**Decomposition temperature** : No data available

**Viscosity, kinematic** : No data available

**Viscosity, dynamic** : No data available

**Explosive limits** : No data available

**Explosive properties** : No data available

**Oxidising properties** : No data available

### 9.2 Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Sand in mix dissolves in hydrofluoric acid, producing corrosive silicon tetrafluoride gas. Silicates react with powerful oxidizers such as fluorine, boron trifluoride, chlorine trifluoride, manganese trifluoride and oxygen difluoride.

### 10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

Contact with powerful oxidizing agents may cause fires.

### 10.4 Conditions to avoid

Heat. Incompatible materials.

### 10.5 Incompatible materials

### 10.6 Hazardous decomposition products

May include, and are not limited to: oxides of carbon. Silica dissolves in hydrofluoric acid producing a corrosive gas - silicon tetrafluoride.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

- **Acute toxicity (oral)** : Not classified.
- **Acute toxicity (dermal)** : Not classified.
- **Acute toxicity (inhalation)** : Not classified.

**Quartz (14808-60-7)**

- **LD50 oral rat** : 500 mg/kg

- **Skin corrosion/irritation** : Not classified.
- **Serious eye damage/irritation** : Not classified.
- **Respiratory or skin sensitisation** : Not classified.
- **Germ cell mutagenicity** : Not classified.
- **Carcinogenicity** : May cause cancer.

**Quartz (14808-60-7)**

- **IARC group** : 1 - Carcinogenic to humans
- **National Toxicology Program (NTP) Status** : 2 - Known Human Carcinogens
- **In OSHA Hazard Communication Carcinogen list** : Yes

- **Reproductive toxicity** : Not classified.
- **STOT-single exposure** : Not classified.
STOT-repeated exposure: Causes damage to lungs through prolonged or repeated exposure. Respirable crystalline silica in the form of quartz or cristobalite from occupational sources is listed by the International Agency for Research on Cancer (IARC) and National Toxicology Program (NTP) as a lung carcinogen. Prolonged exposure to respirable crystalline silica has been known to cause silicosis, a lung disease, which may be disabling. While there may be a factor of individual susceptibility to a given exposure to respirable silica dust, the risk of contracting silicosis and the severity of the disease is clearly related to the amount of dust exposure and the length of time (usually years) of exposure.

Aspiration hazard: Not classified.

Symptoms/effects after inhalation: May cause irritation to the respiratory tract. Symptoms of exposure may include cough, sore throat, nasal congestion, sneezing, wheezing and shortness of breath. Prolonged inhalation of respirable crystalline silica above certain concentrations may cause lung diseases including silicosis and lung cancer. The extent and severity of lung injury depends on duration and level of exposure.

Symptoms/effects after skin contact: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.

Symptoms/effects after eye contact: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Symptoms/effects after ingestion: May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Other information: Likely routes of exposure: ingestion, inhalation, skin and eye.

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general: The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

12.2. Persistence and degradability

| Silica Sand |
| Persistence and degradability | Not established. |

12.3. Bioaccumulative potential

| Silica Sand |
| Bioaccumulative potential | Not established. |

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
Effect on the global warming: No known effects from this product.
Other information: No other effects known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Product/Packaging disposal recommendations: Dispose in a safe manner in accordance with local/national regulations.

SECTION 14: Transport information

Department of Transportation (DOT) and Transportation of Dangerous Goods (TDG)
In accordance with DOT/TDG
Not regulated

SECTION 15: Regulatory information

15.1. Federal regulations
All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

All components of this product are listed, or excluded from listing, on the Canadian DSL (Domestic Substances List) and NDSL (Non-Domestic Substances List) inventories.
Silica Sand
Safety Data Sheet

15.2. International regulations
No additional information available

15.3. US State regulations
California Proposition 65 - This product contains Crystalline Silica, Quartz and may also contain other chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

SECTION 16: Other information
Revision date: 05/17/2017
Other information: None.
