Les Sables OLIMAG Inc.

SAFETY DATA SHEET

SECTION 1: IDENTIFICATION

Product name: Jetmag® , Olimag® , Magfill®
Other names:: Synthetic olivine - pyroxen

Magnesium silicate Enstatite (MgSiO₃) Forsterite (Mg₂SiO₃) Hematite (Fe₂O₃)

Recommended uses: Sand blast (abrasive)

Refractory sand Geothermal grout Rail traction sand

Restrictions on use: None

Supplier: Les Sables Olimag Inc

725 Caouette C.P. 276

Thetford Mines QC G6G 5T1 CANADA

Phone: 418-338-3562 info@olimag.com

SECTION 2: HAZARD IDENTIFICATION

Hazard classification: Olimag products are not hazardous products as

defined by the Canadian federal hazardous products regulation DORS / 2015-17 of January 30th 2015 and

US OSHA Hazard Communication Standard.
Olimag products are not classified under the
Workplace Hazardous Material Information

System (WHMIS). Olimag products

present no physical hazard, no health hazard and

no environmental hazard.

NO PICTOGRAM IS REQUIRED.

Warning: Although Olimag products are not hazardous, it is

highly recommended to wear protective equipments

(gloves, safety goggles, respiratory protection) when used as an abrasive media for sand blasting purposes. Page 1/6

SECTION 3: COMPOSITION / INGREDIENTS

Chemical name: Magnesium silicate

Chemical analysis			
Element	% weight	CAS number	
MgO	38 - 42	1309-48-4	
SiO ₂ (*)	39 - 47	112926-00-8	
Fe ₂ O ₃	7 - 10	1309-37-1	
Al_2O_3	0,3 - 1,3	1344-28-1	
CaO	0,8 - 1,0	1305-78-8	
Others	1 - 2		

i e			
Mineral Analysis			
Mineral	% weight		
Mg ₂ SiO ₃	50 - 60		
MgSiO₃	25 - 30		
MgFe ₂ O ₄	8 - 10		
Fe ₂ O ₃	2 - 8		
Others	4 - 5		

(*) Linked with magnesium in silicate form with less than 1 % free silica.

Common name: Synthetic olivine

CAS number: RN 12 44 003-26-6

Chemical name of impureties,

solvents and / or additives: None

SECTION 4: FIRST AID

First aid measures: Respiratory: none

Skin contact: none

Eye contact: Olimag products may cause irritation when in contact with the eyes. Flush the eyes with abundant running water. If irritation persist, get immediate medical

attention.

Ingestion: If large quantities are swallowed, get immediate

medical attention.

Symptoms and effects: None

SECTION 5: FIRE FIGHTING MEASURES

Extinguishing media: Olimag products are not flammable and not combustible.

All types of extinguishing medias are compatible in

case of surronding fire.

Les Sables **OLIMAG** Inc.

For fire-fighters: No specific protection equipment is needed for fire-fighters

in action in the surronding of Olimag products.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions: Olimag products present no actual hazard in case of

accidental release. No specific protection equipment is

needed in case of such release.

Containment method: No containment is needed in case of accidental release.

SECTION 7: HANDLING AND STORAGE

Handling

precautions: None

Conditions for safe

storage: Store in a dry location.

SECTION 8: EXPOSURE CONTROL AND PERSONAL PROTECTION

Control parameters: Threshold limit values under regulation

(S-2.1, r.15):

10 mg / m³ total dust

 $5~\text{mg}~\text{/}~\text{m}^3~\text{breathable dust}$

Engineering controls: Appropriate ventilation and dust collecting system when

products are used as abrasive media for sand blasting.

Personal Protection: For use as abrasive media for sand blasting:

Hands protection: appropriate protective work gloves. **Eyes protection**: appropriate safety google with side

protection.

Appropriate respiratory protection: dust and particles

coming from the surfaces being sand blasted may

represent a potential health hazard.

Page 3/6

SECTION 9: F	PHYSICAL AND CHEMICAL PROPERTIES	
Appearance:	Color varies from light to dark brown.	
Odour:	None	
Odour threshold:	Non	
pH:	N/A	
Melting point / freezing:	> 1700 ° C	
Boiling point:	N/A	
Flash point:	N/A	
Evaporation rate:	N/A	
Flammability:	None	
Lower flammable / explosive limit:	None	
Upper flammable / explosive limit:	None	
Vapour pressure:	N/A	
Vapour density:	N/A	
Bulk density sand products:	$1,36 - 1,40 \text{ g / cm}^3 - 84,55 - 87,80 \text{ lbs / ft}^3$	
Solubility:	Insoluble in water	
Partition coefficient n - octanol / water:	N/A	
Auto-ignition temperature:	N/A	
Decomposition temperature:	N/A	Page 4/6

Viscosity: N/A

SECTION 10: STABILITY AND REACTIVITY

Reactivity: Non reactive under normal conditions of storage

and use.

Chemical stability: Stable

Possibility of None known

hazardous reactions:

Conditions to avoid: None known

Incompatible materials: None known

Hazardous decomposition

products: None known

SECTION 11: TOXICOLOGICAL INFORMATION

Description: Olimag products don't present any toxicological hazard, no

short or long term effect on the respiratory, oral, skin or

eyes levels.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: N/A

Persistence and degradability None

Bioaccumulative potential: None

Mobility in soil: N/A

Other adverse effects: None known

Les Sables **OLIMAG** Inc.

SECTION 13: DISPOSAL CONSIDERATIONS

Information: If they are not contaminated with hazardous products, the

Olimag products are inert and are not hazardous. No specific protection measures are required for the handling

and disposal of the Olimag products and / or its

packaging.

SECTION 14: TRANSPORT INFORMATION

UN number: N/A

UN proper shipping

name: N/A

Transport hazard classes: Transport of Olimag products is not regulated.

Packaging: In 1200 kg big bag or in 25 kg bag.

Environmental hazard: None

Bulk transport: Possible

Special precaution: None

SECTION 15: REGULATORY INFORMATION

Information: No specific regulation in the fields of occupational health

and safety and / or environment apply to Olimag products.

SECTION 16: OTHERS INFORMATIONS

Last up-dated: December 2nd 2016

Les Sables

OLIMAG Inc.
